Strap hole for easy carry

The integral strap hole makes USB easy to carry on a charm or keychain. Apacer's thoughtful designs bring wonderful experiences for every user!

*Strap accessory shown in image is not included in the product.

Stylish & Compact

The design presents the aesthetic feeling of technology of new generation, through the mini drive itself with the design elements of minimalist aesthetics, composite metal material and geometric asymmetry.

Dustproof, Waterproof, Shockproof and Robust

Super-mini USB flash drives are built with advanced COB (Chip on Board) technology to enable dust-proof, water-proof, shock-proof functions. The tiny body provides unbelievably solid protection against “sliding off”.
